

2008 Seminar Programme

Organisational Development and Strategic Growth

At the heart of every organisation are the people. To be successful the management team must provide a framework for the development of the team; leadership and vision. Whether you are an experienced business director/manager or are or are taking the first steps towards management, this session will provide you with the support to be more effective when dealing with the team no matter how large or small the team is.

- Developing the vision to set the direction for the business
- 11 essential leadership qualities that will set you apart from the rest
- Process management
- Setting the standards in managing the team to improve efficiency
- 4 elements of coaching to deliver successful growth within your business
- Staff retention - how to keep your good people
- 5 tips to improve your staff attitude and morale
- Change is constant - 8 steps to successful change management
